Eco 40-60 - Test wash cycle in compliance with 2019/2014 regulation. The most efficient programme in terms of energy and water consumption for washing normally soiled cotton laundry. Display only: Spin speed values shown on the display can slightly differs from the values stated in the table

For all Test Institutes

Long wash cycle for cottons: set wash cycle Cotton with a temperature of 40°C. Synthetic program along: set wash cycle Synthetics with a temperature of 40°C. This data may differ in your home due to changing conditions in inlet water temperature, water pressure etc. Approximate programme duration values refer to the default setting of the programmes, without options. The values given for programmes other than the eco 40-60 programme are indicative only.

* After programme end and spinning with maximum selectable spin speed, in default programme setting.

** **The duration of the programme is shown on the display.**

The sensor technology adapts water, energy and programme duration to your wash load.
