1 Important safety and environmental instructions

This section contains safety instructions to prevent hazards that can result in injury or property damage.

Any warranty is void if these instructions are not followed.

1.1 General safety

- This appliance complies with international safety standards.
- This device can be used by children over 8 years of age, people with physical, sensory or mental challenges or people with lack of experience or knowledge; as long as control is ensured or information is provided regarding the hazards. Children must not play with the appliance. Cleaning and user maintenance shall not be carried out by unattended children.
- Do not use the appliance if the power cord or the appliance is damaged. Contact authorized service.
- Your mains power supply shall match the information shown on the rating plate label of the appliance.
- Do not use the appliance with an extension cord.
- To prevent damage to the power cord, prevent it from being pinched, crimped or rubbed against sharp edges.
- Do not touch the plug of the appliance with damp or wet hands while the appliance is plugged in.
- Do not pull on the cord while unplugging the appliance.
- Do not vacuum flammable materials and ensure that the cigarette ashes are cooled down before vacuuming them.
- Do not vacuum water and other fluids.
- Protect the appliance against precipitation, humidity and heat sources.
- Do not use the appliance in or near explosive or flammable environments and substances.
- Unplug the appliance before cleaning and maintenance.
- Do not immerse the appliance or its power cord in water for cleaning.

1 Important safety and environmental instructions

- Do not disassemble the appliance.
- Use only original parts or parts recommended by the manufacturer.
- To prevent blockage of the filter or damage to the motor, do not vacuum cement, plaster or fragments of compressed paper.
- Use the appliance with the adapter delivered with the appliance only.
- Do not use the appliance without filters, it may get damaged.
- If you keep the packaging materials, keep them out of the reach of children.
- This appliance is not intended to be used by persons, including children, with physical, sensory and mental disabilities or those who have not adequate experience and knowledge regarding its use, unless they are under the supervision of a person responsible for their safety or they are informed about the operation of the appliance.
- Children shall be supervised to prevent them from playing with the appliance.
- Unplug the adaptor and remove the battery pack before any cleaning or maintenance procedure.
- To avoid any risk of hazard, a damaged adaptor shall be replaced by the manufacturer, the authorized representative of the manufacturer or a similarly qualified technician.
- Keep your fingers, hair and loose clothes away from moving parts or clearances while vacuuming.
- Batteries shall be removed from the appliance before discarding the appliance.
- Disconnect the appliance from power supply before removing the battery.
- Please discard used batteries in accordance with local laws and regulations.
- The batteries included in this appliance may only be replaced with qualified persons.
- Appliance is not intended to be operated for commercial purposes. This appliance is not designed for commercial use, it

1 Important safety and environmental instructions

is intended for home use and in applications as follows:

- In the staff kitchens of the stores, offices and other working environments
- In farm houses;
- By customers in hotels, motels or other accommodation facilities
- In hostels or similar environments.

• **WARNING:** Use the HCX1501-3200450E removable supply unit delivered with the appliance to charge to the battery.

• This appliance shall not be operated by children and people with limited physical, sensory and cognitive skills or people with lack of experience and knowledge unless they are under supervision or they are provided with the relevant instructions.

• Children shall be supervised to prevent them from playing with the appliance.

1.2 Compliance with the WEEE Directive and disposal of the waste product

This product complies with EU WEEE Directive (2012/19/EU). This product bears a classification symbol for waste electrical and electronic equipment (WEEE). This symbol indicates that this product shall not be disposed with other household wastes at the end of its service life. Used device must be returned to official collection point for recycling of electrical and electronic devices. To find these collection systems please contact to your local authorities or retailer where the product was purchased. Each household performs important role in recovering and recycling of old appliance. Appropriate disposal of used appliance helps prevent potential negative consequences for the environment and human health.

1.3 Packaging information

Packaging materials of the product are manufactured from recyclable materials in accordance with our National Environment Regulations. Do not dispose of the packaging materials together with the domestic or other wastes. Take them to the packaging material collection points designated by the local authorities.

1.4 Information on waste batteries

This symbol on the packaging of the packaging related with rechargeable batteries indicates that the rechargeable battery shall not be disposed of with domestic waste. A chemical symbol may accompany this symbol on some rechargeable batteries.

And mercury (Hg) and lead (Pb) symbols may also be added if the rechargeable batteries contain more than %0.0005 mercury and more than %0.004 lead content.

Rechargeable batteries shall not be disposed of with household waste even if they do not contain heavy metals. Always discard the used batteries as per local environmental legislation. Investigate the waste disposal regulations in effect in your area of residence.

2.2 Technical data

	VRT 84225 VI
Nominal input power	350 W
Input	100 - 240 V~ 50-60 Hz 0,5 A
Output	32 V  0.45 A
Charging time	4-6 hours
Runtime at max. power	10 mins
Runtime at mid power	20 mins
Runtime at min. power	45 mins

The rights to make technical and design changes are reserved.

The values provided with the appliance or its accompanying documents are laboratory readings in accordance with the respective standards. These values may differ depending on the use and ambient conditions.

2 Overview

External Power Supply Parameter

	VRT 84225 VI
Manufacturer:	Guangdong Huachuangxing Power Supply Co.,Ltd
Model ID:	HCX1501-3200450E
Input Voltage:	100-240V~
Input Frequency:	50-60Hz
Input Current:	0.5A
Output Voltage	32.0V
Output Current	0.45A
Output Power:	14.4W
Average active efficiency:	85.5%
Efficiency at low load (10%):	83.33%
Power consumption under no load:	0.041W

3 Installation

3.1 Intended use

This appliance is intended for household use and it is not suitable for industrial use.

3.2 Installation of the charging dock

Position the charging dock at a height of minimum 112 cm from the ground.

1- Fix four dowels on the wall
2- Place four screws into their locations on the charging dock and mount on the dowels on the wall.

Plug the charging adaptor to the socket.

3.3 Installation of the body and the brush

Push the tube in the direction of arrow towards the body by pushing on the tube release button.

Press the electric turbo brush release button on the electric turbo brush and push it in the direction of arrow towards the tube.

Attach crevice attachment and combination tool to the charging dock.

4 Operation

4.1 Charging the appliance

Place the appliance on the charging dock.

After placing dust container on the charging dock, push the appliance towards the charging dock.

Plug the charging adaptor to the socket.

When you place appliance to the charging dock, it starts to charge and the battery charge percentage shall be displayed on the screen. Percentage (%) are increased as the appliance is charged.

It takes up to 4 to 6 hours to charge the appliance completely. The appliance shall not be operated while charging.

If the appliance is placed on the charging dock while it is being operated, it shall be stopped automatically.

4.2 Usage

1- Push the appliance release button on the charging dock downward and pull the appliance towards yourself at the same time.

2- Remove the appliance from the charging dock.

Press the on/off button to operate the appliance. The appliance starts operating with the minimum power when the on/off button is pressed.

To adjust the speed level, push the button. On the screen, which suction mode is being used will be shown as min, mid and high. By pressing the button, the speed level can be adjusted.

4 Operation

The appliance may be placed for charging before the complete discharging of the battery. The appliance may be kept continuously as charging on the charging dock until the next operation.

Pay attention to the battery level percentage during operation. Battery level percentage should be tracked during usage when it is empty, the appliance stops operating automatically.

This appliance is suitable for use on carpets and hard floors.

You can fold the tube for easy access to areas such as armchairs and under tables. You can fold the tube by pressing the round button mechanism on the left side that allows the tube to be folded.

4 Operation

4.3 LED screen indicators

Those icons will show the suction mode which is being used.

4.3 Accessories

Crevice: Suitable for vacuuming the rear of the furnitures, hard to reach areas and narrow areas.

Combination tool: Suitable for vacuuming curtains, sofas, waxed furniture and delicate and fragile objects.

Mini turbo pet brush: Suitable for vacuuming floorings, stair steps, car interiors, sofas and seat, etc. It is also used for vacuuming pet hair on such surfaces.

4 Operation

Mop Attachment: Suitable for hard floor mopping process. Fill the water tank with potable water.

Attach mopping cloth to the bottom of water tank.

Attach mop attachment to the bottom of electrical turbo brush.

WARNING: Do not use the mop attachment on a carpet.

WARNING: Do not put bleach or detergent in the water tank.

WARNING: Remove the mop attachment after usage is completed.

WARNING: Remove the mop attachment immediately after the mopping operation is completed to prevent damage to your wooden floors.

WARNING: Clean the water tank after each use.

Mopping cloths can be washed in washing machine.

5 Cleaning and maintenance

Turn off and unplug the appliance before cleaning.

WARNING: Never use gasoline, solvent, abrasive cleaners, metal objects or hard brushes to clean the appliance.

WARNING: Deformation may occur on the filters within time as a result of usage. It shall be replaced with a new one to prevent loss of performance. Contact with the customer services to buy a new one.

5.1 Cleaning the Dust container and Filters

WARNING: Do not wash the filters.

We recommend you to clean the dust container after each operation.

Wipe the surface of the body with a wet cloth.

In order to operate the product at high performance for a long time, it may be necessary to clean the filter by rotating the mechanism under the dust container. It will help to clean the filter easily.

Pull the emptying dust container trigger to the last point. Dust container lid will be opened. Empty all the dust it contains.

5 Cleaning and maintenance

For a detailed cleaning of filters, remove the dust container by pushing the button to the left side.

Separate pre-filter and plastic filter from each other.

To take out the plastic filter, first rotate the plastic filter counter clockwise (1), then pull out the filter (2).

Remove the dust on the pre-filter and the plastic filter by tapping it on a hard surface such as a waste bin or by using a brush.

To insert the plastic filter, firstly place the plastic filter (1), then rotate it clockwise to lock it (2).

Attach pre-filter to the plastic filter back.

5 Cleaning and maintenance

While placing the pre-filter, make sure that arrows on the pre-filter and the body are aligned.

Fix the connector of dustbin to the holes on the body, then fix the dustbin until you hear the click sound.

5.2 Cleaning of the brush

WARNING: Do not wash the turbo brush and the main roller.

Push the roller release button to the left side.

Remove the dust on it by tapping it lightly to a hard surface or remove the dust with a brush. If any hair, etc. is tangled, remove it by cutting it off.

Fix the roller back to its place by pushing.

5 Cleaning and maintenance

5.3 Storage

- If you do not intend to use the appliance for a long time, store it carefully.
- Unplug the appliance.
- Ensure that the appliance is kept out of reach of children.
- If you shall not be using the battery for a long period of time, please keep it in a cool and dry place at half charged condition. Do not charge or discharge completely.
- Store the battery on a non-conducting material, and do not allow the battery to contact metal directly. This shall damage the battery.

5.4 Transport and shipping

- During transport and shipping, carry the appliance with its original packaging. The packaging of the appliance will protect the appliance against physical damage.
- Do not put heavy objects on the appliance or its packaging. Otherwise the appliance may be damaged.
- If the appliance is dropped, the appliance may not operate or permanent damage may occur.

Product Guarantee

12 months breakdown and repair guarantee

Guarantor: **Beko plc, 1 Greenhill Crescent, Watford, Hertfordshire. WD18 8UF**

The guarantee does not in any way diminish your statutory or legal rights.

Your **appliance** has the benefit of our manufacturer's guarantee which covers the product for 12 months from the date of original purchase.

This gives you reassurance that if within that time, your **appliance** is proven to be defective because of either workmanship or materials, we will at our discretion either repair or replace your **appliance**.

The **appliance** must be correctly installed, located and operated in accordance with the instructions contained in the user manual. The guarantor disclaims any liability for accidental or consequential damage.

The Guarantee is subject to the following conditions:

- Documentary proof of the original purchase date is provided.
- The appliance has been installed and operated correctly and in accordance with our operating and maintenance instructions.
- The appliance is used only on the electricity supply on the rating plate.
- The appliance has only been used for normal domestic purposes.
- The appliance has not been altered, serviced, dismantled or otherwise interfered with by any person.
- The appliance is used in the United Kingdom or Republic of Ireland.
- Any parts removed during repair work or any product that has been replaced becomes our property.
- The guarantee is not transferrable if the product is resold.

The Guarantee does not cover:

- Transit, installation or delivery damage.
- Accidental damage.
- Misuse or abuse.
- Replacement of any consumable item or accessories. These include but are not limited to: plugs, cables, light bulbs, knobs, filters and flaps.
- Repairs or replacements required as a result of unauthorised repairs or inexperienced installation that fails to meet the requirements contained in the user guide or instruction book.
- Repairs to products used in commercial or non-residential household premises.

How to obtain after sales service, help or general advice

Please keep your purchase receipt or other proof of purchase in a safe place as you will need to show us this document if your product requires attention within the guarantee period.

Please also record your product details below, which will allow you to access our services more quickly and help us identify your product. The model number is printed on the front of the user guide and the serial and model number is shown on your products rating plate.
