1 Important safety and environmental instructions

This section contains safety instructions to prevent hazards that can result in injury or property damage.

Any warranty is void if these instructions are not followed.

1.1 General safety

- This appliance complies with international safety standards.
- This device can be used by children over 8 years of age, people with physical, sensory or mental challenges or people with lack of experience or knowledge; as long as control is ensured or information is provided regarding the hazards. Children must not play with the appliance. Cleaning and user maintenance shall not be carried out by unattended children.
- Do not use the appliance if the power cord or the appliance is damaged. Contact authorized service.
- Your mains power supply shall match the information shown on the rating plate label of the appliance.
- Do not use the appliance with an extension cord.
- To prevent damage to the power cord, prevent it from being pinched, crimped or rubbed against sharp edges.
- Do not touch the plug of the appliance with damp or wet hands while the appliance is plugged in.
- Do not pull on the cord while unplugging the appliance.
- Do not vacuum flammable materials and ensure that the cigarette ashes are cooled down before vacuuming them.
- Do not vacuum water and other fluids.
- Protect the appliance against precipitation, humidity and heat sources.

1 Important safety and environmental instructions

- Do not use the appliance in or near explosive or flammable environments and substances.
- Unplug the appliance before cleaning and maintenance.
- Do not immerse the appliance or its power cord in water for cleaning.
- Do not disassemble the appliance.
- Use only original parts or parts recommended by the manufacturer.
- To prevent blockage of the filter or damage to the motor, do not vacuum cement, plaster or fragments of compressed paper.
- Use the appliance with the adapter delivered with the appliance only.
- Do not use the appliance without filters, it may get damaged.
- If you keep the packaging materials, keep them out of the reach of children.
- This appliance is not intended to be used by persons, including children, with physical, sensory and mental disabilities or those who have not adequate experience and knowledge regarding its use, unless they are under the supervision of a person responsible for their safety or they are informed about the operation of the appliance.
- Children shall be supervised to prevent them from playing with the appliance.
- Unplug the adaptor and remove the battery pack before any cleaning or maintenance procedure.
- To avoid any risk of hazard, a damaged adaptor shall be replaced by the manufacturer, the authorized representative of the manufacturer or a similarly qualified technician.
- Keep your fingers, hair and loose clothes away from moving parts or clearances while vacuuming.

1 Important safety and environmental instructions

- Batteries shall be removed from the appliance before discarding the appliance.
- Disconnect the appliance from power supply before removing the battery.
- Please discard used batteries in accordance with local laws and regulations.
- The batteries included in this appliance may only be replaced with qualified persons.
- Appliance is not intended to be operated for commercial purposes. This appliance is not designed for commercial use, it is intended for home use and in applications as follows:
 - In the staff kitchens of the stores, offices and other working environments
 - In farm houses;
 - By customers in hotels, motels or other accommodation facilities
 - In hostels or similar environments.
- **WARNING:** Use the HCX1501-3200450E removable supply unit delivered with the appliance to charge to the battery.
- This appliance shall not be operated by children and people with limited physical, sensory and cognitive skills or people with lack of experience and knowledge unless they are under supervision or they are provided with the relevant instructions.
- Children shall be supervised to prevent them from playing with the appliance.

1 Important safety and environmental instructions

1.2 Compliance with the WEEE Directive and disposal of the waste product

This product complies with EU WEEE Directive (2012/19/EU). This product bears a classification symbol for waste electrical and electronic equipment (WEEE). This symbol indicates that this product shall not be disposed with other household wastes at the end of its service life. Used device must be returned to official collection point for recycling of electrical and electronic devices. To find these collection systems please contact to your local authorities or retailer where the product was purchased. Each household performs important role in recovering and recycling of old appliance. Appropriate disposal of used appliance helps prevent potential negative consequences for the environment and human health.

1.3 Packaging information

Packaging materials of the product are manufactured from recyclable materials in accordance with our National Environment Regulations. Do not dispose of the packaging materials together with the domestic or other wastes. Take them to the packaging material collection points designated by the local authorities.

1.4 Information on Waste Batteries

This symbol on rechargeable batteries/batteries or on the packaging indicates that the rechargeable battery/battery may not be disposed of with regular house hold rubbish. For certain rechargeable batteries/batteries, this symbol may be supplemented by a chemical symbol. Symbols for mercury (Hg) or lead (Pb) are provided if the rechargeable batteries/batteries contain more than 0,0005 % mercury or more than 0,004 % lead.

Rechargeable batteries/batteries, including those which do not contain heavy metal, may not be disposed of with household waste. Always dispose of used batteries in accordance with local environmental regulations. Make enquiries about the applicable disposal regulations where you live.

1.5 What to do for energy saving

- When using your appliance, adjust the speed settings according to the surface, in order to save energy.
- Normally, lower speeds are used when cleaning hard surfaces, curtains and sofas, while high speeds are used in for cleaning carpets.

1.6 Compliance with RoHS Directive

The product you have purchased complies with EU RoHS Directive (2011/65/EU). It does not contain harmful and prohibited materials specified in the Directive.

2.2 Technical data

	450 W
Input	100 - 240 V~ 50-60 Hz 0,5 A
Output	32 V  0.45 A
Charging time	4-6 hours
Runtime at max. power	10 mins
Runtime at mid power	30 mins
Runtime at min. power	60 mins

The rights to make technical and design changes are reserved.

The values provided with the appliance or its accompanying documents are laboratory readings in accordance with the respective standards. These values may differ depending on the use and ambient conditions.

2 Overview

External Power Supply Parameter

Manufacturer:	Guangdong Huachuangxing Power Supply Co.,Ltd
Model ID:	HCX1501-3200450E
Input Voltage:	100-240V~
Input Frequency:	50-60Hz
Input Current:	0.5A
Output Voltage	32.0V
Output Current	0.45A
Output Power:	14.4W
Average active efficiency:	85.5%
Efficiency at low load (10%):	83.33%
Power consumption under no load:	0.041W

Usage Type	Speed Level	Usage Time	
Use with tube and brush	Minimum speed	Up to 40 min	
	Medium speed	Up to 25 min	
	Maximum speed	Up to 8 min	
Handheld (With non-motorized accessories)	Minimum speed	Up to 60 min	
	Medium speed	Up to 30 min	
	Maximum speed	Up to 10 min	

3 Installation

3.1 Intended use

This appliance is intended for household use and it is not suitable for industrial use.

3.2 Installation of the charging dock

Position the charging dock at a height of minimum 100-102 cm from the ground.

1- Fix four dowels on the wall

2- Place four screws into their locations on the charging dock and mount on the dowels on the wall.

Plug the charging adaptor to the socket.

3.3 Installation of the body and the brush

Push the tube in the direction of arrow towards the body by pushing on the tube release button.

Press the electric turbo brush release button on the electric turbo brush and push it in the direction of arrow towards the tube.

Attach crevice attachment and combination tool to the charging dock.

4 Operation

4.1 Charging the appliance

WARNING: If you want to use the device for the first time or after a long time, charge the batteries completely before using.

Place the appliance on the charging dock.

When you place appliance to the charging dock, it starts to charge and the battery charge levels shall be displayed on the screen. When all the battery levels are full and stable, the charging process will be completed.

It takes up to 4 to 6 hours to charge the appliance completely. The appliance shall not be operated while charging.

If the appliance is placed on the charging dock while it is being operated, it shall be stopped automatically.

4 Operation

4.2 Usage

1- Pull the appliance from the charging dock upward.

Press the on/off button to operate the appliance. The appliance starts operating with the minimum power when the on/off button is pressed.

To adjust the speed level, push the button. On the screen, which suction mode is being used will be shown as min, mid and high. By pressing the - and + buttons, the speed level can be adjusted.

The appliance may be placed for charging before the complete discharging of the battery. The appliance may be kept continuously as charging on the charging dock until the next operation.

Pay attention to the battery levels during operation. Battery levels should be tracked during usage when it is empty, the appliance stops operating automatically.

4 Operation

This appliance is suitable for use on carpets and hard floors.

You can fold the tube for easy access to areas such as armchairs and under tables. You can fold the tube by pressing the round button mechanism on the left side that allows the tube to be folded.

4.3 Accessories

Crevice: Suitable for vacuuming the rear of the furnitures, hard to reach areas and narrow areas.
