TASTE THE WINE
The cellar allows the wine to be brought to temperature before tasting. Bringing it to temperature awakens the aromas and allows you to appreciate the wine when tasting it.

PRESENT THE WINE
The glass door with anti-uv treatment protects the wine from light and enhances it. The wine collection is preserved while beig accessible and presented on traditional beech wood shelves. The front shelf has a notch to place labels and identify wines.

STORE WINE
The electronically adjustable cold system is suitable for storing wine while waiting for tasting. The temperature range has been defined to accomodate the heating of different types of wine.

CLIMADIFF EXPERTISE
For 11 generations Climadiff has preserved and brought wine to tasting temperature. Preciously preserved in our cellars, the wine ages and improves and becomes your heritage.

Eco-responsibility

Our products are manufactured in compliance with European environmental rules. Especially, refrigerant fluid (R600a) doesn't reject neither CFC nor HFC and respect environment.

Energy consumption is calculated based on the result obtained for 24h in standard test conditions. The actual energy consumption depends on the conditions of use and location of the device.
This equipment is designed to be used in an ambient temperature between 10-38°C.
This appliance is intended to be used exclusively for the storage of wine.

Alcohol abuse is dangerous for health, please consume in moderation.

*Capacity given as an indication with 75cl Bordeaux traditional type bottles and measured with 4 shelves. Adding shelves reduce considerably the total capacity.
**Thanks to the Vinotag® application, benefit from a digital register of your wine cellar and be alerted of the peak dates of your wines. In partnership with Vivino, scan your bottle to access its pre-filled wine sheet.
