Wine by the glass dispenser

Professional range

- + Capacity: 2 bottles*
- + Free standing installation
- + Design: black body & silver door frame
- + Cooling system: compressor
- + Type of cold: air moving system
- + Adjustable temperature range of use: 4°C-18°C
- + Electronic regulation
- + Thermometer with white digital display
- + White LED lights with switch button
- + 1 glass door glass (transparent)

WINE BY THE GLASS SERVICE

Ideal for professionals, the wine dispenser by the glass allows you to serve a precise dose of wine in addition to bringing it to tasting temperature and protecting your wines from oxidation. Its adjustable caps can be adjusted according to the height of your bottles; once installed, you can deliver your wine by continuous pressure or by dosing system precisely and directly to the glass.

KEEP YOUR WINES LONGER

This wine by the glass dispenser allows you to protect your most precious bottles from air oxidation. Thanks to its nitrogen storage system (CA06 cartridge compatible - 2 cartridges included) you preserve the taste qualities of your wines longer; your bottles can thus be served up to 3 weeks after opening.

TO THE NEAREST DEGREE

In order to restore all its aromas, the wine must be tasted at a precise temperature. This service for wine by the glass allows you to simultaneously bring up to two 75 cl Bordeaux type bottles to the ideal temperature for tasting (adjustable between 4°C and 18°C).

Eco-responsibility

Our products are manufactured in compliance with European environmental rules. Especially, refrigerant fluid (R600a) doesn't reject neither CFC nor HFC and respect environment.

Energy consumption is calculated based on the result obtained for 24h in standard test conditions. The actual energy consumption depends on the conditions of use and location of the device.

This equipment is designed to be used in an ambient temperature between 16-38°C.

Alcohol abuse is dangerous for health, please consume in moderation.

*Capacity given as an indication with 75cl Bordeaux traditional type bottles and measured with shelves. Adding shelves reduce considerably the total capacity.

> EQUIPMENTS INCLUDED

- 2 , ref: CA06

> TECHNICAL CHARACTERISTICS

- Energy class: B
- Annual electrical consumption: 180 kWh
- Climatic class: ST
- Noise level: 0 dB
- Voltage: 220-240 V
- Power input: 0 W
- Category: 10 - Multi-use and other refrigerating
- Type of gas: R600a
