COOKING PROGRAMS

Lower-level cooking	Suitable for heating foodstuffs.
traditional cooking	The ideal function for all traditional recipes, including bread, cakes and roasts.
Intensive cooking	The upper and lower heating elements and the fan ensure rapid, uniform cooking. ideal for cooking pizzas, roasts, lasagne and savoury pies.
Ventilated cooking	The combination of ventilation and circular heating elements allows for cooking different types of foodstuffs together, without mixing aromas and flavours.
Grill	To quickly gratin the surface of the food.
Double Grill	Heat is generated by the upper grill only: ideal for toasting, cooking au gratin and browning foodstuffs and also suitable for meat, fish and pasta.
Ventilated grill	The combined action of the fan and grill produces rapid and thorough cooking of thick foodstuffs.
Ventilated Cooking + Bottom Cooking	The harmony of two cooking types make an excellent program for the creation of an amazing pizza, of quiches or stuffed desserts.

ECO Ventilated Cooking

Program with low energy consumption, ideal for heating and for foods that need gentle and progressive cooking.

DETAILS

Material	Stainless steel + glass
----------	-------------------------

Texture	Satin Finish ANTI-TOUCH
---------	-------------------------

Supply	220-240 V 50/60 Hz
--------	--------------------

Energy class	A
--------------	---

Dimensions	90x60 cm
------------	----------

Standard fittings	2 grids and 1 enamelled dripping pan
-------------------	--------------------------------------

Cooking chamber finish	Easy Clean enamel
------------------------	-------------------

Lighting	Independent oven's light
----------	--------------------------

Number of door glasses	3 glasses
------------------------	-----------

Programming	Electronic start-end cooking program
-------------	--------------------------------------

Type of cooling	Tangential ventilation
-----------------	------------------------

Safety	Grill resistance protection
--------	-----------------------------

Oven type	Multifunction oven
-----------	--------------------

Type of commands	Knobs
------------------	-------

Volume	103Lt
--------	-------

FEATURES

A energy class	A range totally in Class A ++, A + and A. An important result that proves the high quality, aimed at optimizing performance and savings.
----------------	--

XXL capacity	The cooking chamber has a volume of over 70 liters, much greater than that of standard ovens.
--------------	---

Anti-touch finish	The steel parts of the door, thanks to the special protection, are perfectly smooth and protected from fingerprints, while maintaining the elegance of the satin finish.
-------------------	--

Full glass door	The inside of the oven door constitutes a single smooth glass surface making it practical for cleaning purposes.
-----------------	--

Easy clean enamelling	The Easy-Clean enamelling makes the internal oven surfaces and accessories non-adhesive, while the limited porosity ensures durability and easy cleaning.
-----------------------	---

Triple glass	The door is equipped with a multiple glass door. This device ensures low temperatures of external surfaces and lower heat loss.
--------------	---

Tangential fan	A special ventilation creates a flow of air between the cooking chamber and framework, thereby reducing the temperature of the external surfaces. As consequence, the oven does not expose furniture to temperature shock.
----------------	--
